

Chemicals

Scars on Broadway

I'll smack your face, you fell in love when I said fuck your mom
I looked at you said it's all over
I turned around and walked away and you just grab my arm
I looked at you said I can't stay sober Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals Madness, feeling scared
Looking around and nobody there
When I say fuck the world, let's get ready to rock
As I piss on your face while you suck on my cock Madness, no one cares
Looking around and nobody there
When I say fuck the world, let's get ready to rock
As I piss on your face while you suck on my cock Oh maybe baby, won't you rape me? Won't you fantasize?
About the time when we were lovers
I try to phone you, try to warn you but no compromise
I grab your ass under the cover Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals Madness, feeling scared
Looking around and nobody there
When I say fuck the world, let's get ready to rock
As I piss on your face while you suck on my cock Madness, no one cares
Looking around and nobody there
When I say fuck the world, let's get ready to rock
As I piss on your face while you suck on my cock Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals Madness, feeling scared
Looking around and nobody there
When I say fuck the world, let's get ready to rock
As I piss on your face while you suck on my cock Madness, no one cares
Looking around and nobody there
When I say fuck the world, let's get ready to rock

As I piss on your face while you suck on my cockCome eat some chemicals with me

Come eat some chemicals

Come eat some chemicals with me

Come eat some chemicalsCome eat some chemicals with me

Come eat some chemicals

Come eat some chemicals with me

Come eat some chemicals
