

Outside of This

Greeley Estates

she's searching for someone to save her from this place
to rescue her from what she can't escape
there's not much hope left she's thrown it all away
been knocked down so much she can't get up
she cries out in pain take me away further away
outside of this
i'm falling apart looking for what's
outside of this
she's broken and let down with nowhere left to turn
the mask she had is soon to be erased
asking herself what's worth living for
she cries out again take me away further away
outside of this
i'm falling apart looking for what's
outside of this
