

Agony

The Muffs

You were a fool to go under the table
And now you know you were unable
To pretend you're all alone
And now look what it's done to you And when you find that you're getting attention
And you think that you're having all the fun
But soon you'll realize
You're living in a fantasy So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony Do anything you want always all the time
But now you know it wasn't worth a dime
So now you're all alone
And now it's not a perfect world And when you think
You're more clever than anyone
Now think again, we knew it all along
But in reality I know you'll never be okay So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony And I'll be by your side
And I'll be by your side
And if you think that I'm unkind
Then you're blind So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony
