Freedom

Tim Steinfort

Intro
"The way of life can be free and beautiful, but we have lost the way, greed has poisoned men's soul"

You cannot build your own house for that you'll need a license
That will cost you money ridiculous prices
You have the choice to rent or buy
But they made the prices extremely high
So now you need to work 8 hours a day
To cover for the bills which you have to pay

Chorus:
The companies own your primary needs
If you lose your job you'll be out on the streets
People talking about freedom
People talking about bullshit they know nothing about

You'll get rewarded for succes and punished if you fail
The rich can pay a fine the others go to jail
Freedom is there for those who are rich
but if you're not you're society's bitch
And than you have to work until you're fucking dead
Just because you need a roof above your head

Chorus:
The companies own your primary needs
If you lose your job you'll be out on the streets
People talking about freedom
People talking about bullshit they know nothing about

"the kingdom of god is within man, not one man nor a group of men, but in all men in you, you the people have the power, the power to create machines, the power to crate happiness, you the people have the power to make this life free and beautiful, to make this life a wonderful adventure, then in the name of democracy lets us use that power, let us all unite"

Some people put there trust and hope in politicians
Who hunger for power and look for recognition
Egos go high talents go low
It's time to face what we already know
You're married to you work when death do us part

You want to divorce but you'll be back at fucking start

Chorus:
The companies own your primary needs
If you lose your job you'll be out on the streets
People talking about freedom
People talking about bullshit they know nothing about
