Voodoo Roller

Space

Voodoo roller lives in solar
Many miles from here
He knows gay day red peppers on Sunday
But only twice a yearYou won't take me, no one shake me
'Cos voodoo roller's here
But what you've got
You know you've gotta get away from meKeyser Soze's real so they say
But I don't believe a word
The devil himself sold his soul to an elf
When he was turkeying he needed the worldYou won't take me, no one shake me
'Cos voodoo roller's here
But what you've got you can sayYou won't take me, no one shakes me
You won't take me, no one shakes me
You won't take me, no one shakes me
You won't take me, no one shakes meYou won't take me, no one shakes me
'Cos voodoo roller's here
What you've got you know you can say
What you've got you know s-s-say it to meYou won't take me, no one shakes me
You won't take me, no one shakes me
You won't take me, no one shakes me
You won't take me, no one shakes me
