On The Coldest Winter Night

Kamelot

I am breathless, need I say
How could you find me here
You of all have crossed my way
Unexpectedly from whereI feel like I am dreaming
Hold me close, tomorrow may be goneThis is a moment of belief
This is a moment made of dreams
You found me here today
On the coldest winter night
This moment is our rightNow, Helena, tell me all
For years we've been apart
Did you hear the mountain fall?
My broken heartDon't wake me if I'm dreaming
Hush my dear 'cause tomorrow may be goneLost in the present I assure
This is the moment, say no more
You found me here today
On the coldest winter night
This moment is our rightThis is a moment of belief
This is a moment made of dreams
You found me here today
On the coldest winter night
This moment is our right
