

Ricochets

Holly Valance

When will you ever see?
You're killing me with the things that you say
It's all so gritty
What am I to do and do
Am I to do or do
When will you ever see?
To let it beDon't cry
It just ricochets
Into another day
Into another day
Please try to have something to say
There'll be another day
There'll be another dayTake a look around
Your only down was the things that you say
Turn out that way
What can you ever do
What can you ever do
When no one's around
It's going downDon't cry
It just ricochets
Into another day
Into another day
Please try to have something to say
There'll be another day
There'll be another dayDragging me down I go my way
The ending's always near
Head underground again today
Be only you are here andDon't cry
It just ricochets
Into another day
Into another day
Please try to have something to say
There'll be another day
There'll be another dayDon't cry
It just ricochets
Into another day
Into another day
Please try to have something to say
There'll be another day

There'll be another day
