

Long Way South

Carolina Story

Torrential high seas
Dragged me to my knees
Bleeding perfumed blood
Magic mixed with mud and Grace I need you to ease
My place in this world
Of face I don't want to ever Death defying breeze
Is just what I need
Ease this passing blood
Pressure in my ears and Grace I need you to ease
My place in this world
Of face I don't want to ever Torrential high seas
Dragged me to my knees
Bleeding perfumed blood
Magic mixed with mud and Grace I need you to ease
My place in this world
Of face I don't want to ever
