

Where's Your Head At

Jean Elan

Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
You get what you give that much is true
Don't let the walls cave in on you
You turned the world away from you
Where's your head at?
Where's your head at? Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
You have found yourself
Trapped in this incomprehensible maze
Where's your head at?
Where's your head at?
Don't make it easy on yourself
Where's your head at?
Got to get, got to get
Got to get, got to get
Where's your head at?
Where's your head at? Where's your head at?
Where's your head at?
Where's your head at? Where's your head at?
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
We can't evolve alone without you

Don't let the walls cave in on you
We can't evolve alone without you
Where's your head at?
Where's your head at?
We can't evolve alone without you
We can't evolve alone without you
We can't evolve alone without you
We can't evolve alone without you
