

Adieu

Tchami

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

But I need you now You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

But I need you now

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone

You tell me to leave you alone
