## Together

## Frank Sinatra, Bing Crosby & Dean Martin

## Oh ya

Alright You know I'm down and I'm there for you I know you got my back and I gotcha too And there's something you should know Let's do it together See I'm your Bonnie and you're my Clyde I'm always gonna be here by your side And there's something you should know Let's do it together I know we don't always See eye to eye 'Cause you be looking one way And so am I We got an understandin' And that's just how it is No matter what the problem We're still makin' ends Baby, you know I'm loving all this time with you Ain't letting you go I don't wanna lose a good thing Not too young to see That true love comes once in a lifetime So come with me We can do this together You know I'm down and I'm there for you I know you got my back and I gotcha too And there's something you should know Let's do it together See I'm your Bonnie and you're my Clyde I'm always gonna be here by your side And there's something you should know Let's do it together I told you from the get go I'm down to ride Ain't no looking backwards We'd be one for life Love can be so demandin'

It's all in the game But as long as we're together We'll make it through the rain, ya Baby, you know I'm loving all this time with you Ain't letting you go I don't wanna lose a good thing Not too young to see That true love comes once in a lifetime So come with me We can do this together You know I'm down and I'm there for you I know you got my back and I gotcha too And there's something you should know Let's do it together See I'm your Bonnie and you're my Clyde I'm always gonna be here by your side And there's something you should know Let's do it together 'Cause you know I'm there for you No one can love you better All the things that we've been through No one can take ya place You and I against the world Let's make it last forever You're the only one for me You wantchu, I wantchu I need you, I love you You know I'm down and I'm there for you I know you got my back and I gotcha too And there's something you should know Let's do it together See I'm your Bonnie and you're my Clyde I'm always gonna be here by your side And there's something you should know Let's do it together
