Right Now, Right Here

Surrender The Crown

Jenny feels so bad
She's got a heart that's breaking
The flame burned bright
Now slowly dies
His last words Hold on
And if she's not mistaken
Jenny did just that
And now it's more than her heart that's breakingBleed like you Bleed like me
What makes you better than me?
Bleed like me bleed like you
She knows forever's not true
It's so clear - this guys not here
And time will change the way she's feeling
Right now, right here
Her innocence is falling downJenny drives all around
Jimmy's car it can't be found
Big lies in a small town
She hears them talk
Her friends say just leave him
Knows it's true but she don't believe them
Tangled web he weaved it
First scar she just received itBleed like you Bleed like me
What makes you better than me?
Bleed like me bleed like you
She knows forever's not true
It's so clear - She can hear him calling
Under her skin - feel him crawling
Right now right here
Her innocence is falling downBleed like you Bleed like me
What makes you better than me?
Bleed like me bleed like you
She knows forever's not true
It's so clear - this guys not here
And time will change the way she's feeling
Right now, right here
And her innocence is falling..Bleed like you Bleed like me
What makes you better than me?
Bleed like me bleed like you
She knows forever's not true

It's so clear - She can hear him calling
Under her skin - feel him crawling
Right now right here
Her innocence is falling down
