Id Engager

Of Montreal

Oh yeah
Is that my Concorde on the launcher?
Looks good
One, two, three, four
Ooh aah, ooh aah, ooh aah, ooh aahHe's just a slutty little flirt, and sister
He's only gonna hurt you, watch yourself
Ladies, I'm screaming out to you
From the depths of this phallocentric tyrannyMy self concept is awaiting your invasion
Clumsy penetration punishment, oh yeah
When the hope of another wet nightmare
Is all we have to live forCan't help it if it's true
Don't wanna be your man
Just wanna play with you
Play with you, play with you
Play with you, play with youI can't help it if it's true
Don't wanna be your man
No, I just wanna play with you
Play with you, play with you
Play with you, play with youHe predicted the aphid empire
Now he occupies the blur as well
When asking why their kisses are sorrowful
Remember the howl of our first verseNinjas prove it
RightI can't help it if it's true
Don't wanna be your man
Play, playCan't help it if it's true
Don't wanna be your man
Just wanna play with you
Play with you, play with you
Play with you, play with youI can't help it if it's true
Don't wanna be your man
Hey, don't come it's alright
I just wanna play with you
Play with you, play with you
Play with you
