

Mountain

All Them Witches

Found all the things to eat
So you ate them
Stole all the tongues
From the mouths of the babesSpent your life making swords
for the lonely
Crawled around in the woods
Cutting legs from the snakesI'd sell my sisters
Gone off to the mountain side
And I don't want to find them
I just wanna live my life
God bless our mother, the mountain
She filled all the holes gathered in my eyes
God bless our mother, the mountain
She filled all the holes gathered in my eyesI would walk forever
Just to know you
Give me a place
And I will bless these wallsShow me the beast
I should sing to
Blood with reason
Clenched in your jawsI'd sell my sisters
Gone off to the mountain side
And I don't want to find them
I just wanna live my life
God bless our mother, the mountain
She filled all the holes gathered in my eyes
God bless our mother, the mountain
She filled all the holes gathered in my eyes
