I Am Your Doctor

Wyclef Jean

I am your doctor, yeah yeah yeah
Here's the prescription
Girl, two teaspoons of my friendship
A full cup of my love
Yo Wayne Wonder, you ready to talk to the girls
Let's go
I will be knockin' by the time me come a four
Here comes the doctor, baby, worry no more
I will bring the remedy, baby, I will bring the cure
Give you what you want and absolutely I am sure
Take my hands, I'll be your man
Let me take you to the sunshine island
I will be your therapy, let it be
You know you need my healing
Wait a minute
I am your doctor, yeah yeah yeah
Here's the prescription, yeah yeah yeah
Two teaspoons of our friendship, a full cup of my love
Gimme some love, gimme some love
And if your back is hurtin', turn around, girl
See, I'm your chiropractor
Please lay on this sofa
And let me message your back
So I can feel what's wrong
Yo Wayne, talk to the girls, man
If you got a problem and you wanna get it fixed
Send for the doctor with the medicine for your chest
Fill your prescription with the right mix
My kiss and I will say what kind of miracle is this
Take my hands, I'll be your man
Let me take you to the sunshine island
I will be your therapy, let it be
You know you need my healing
Let me talk to them now
When you make it to the emergency room, yeah
Tell the nurse I said that she don't need no coverage, no no no no
'Cause I been waitin' to operate on you all night
So lay back, relax
Feel my hands right through your hair
