

# We Don't Deserve Love

## Arcade Fire

Keep both eyes on the road tonight  
'Cause I'm driving home to you  
Terrible song on the radio  
Baby, what else is new? You don't want to talk  
You don't want to touch  
You don't even want to watch TV  
You say I can't see the forest full of trees  
So burn it all down, and bring the ashes to me Keep both eyes on the road tonight  
'Cause God knows where I've been  
Officer please, don't check my breath  
That ain't my only sin  
You don't want to talk  
You don't want to touch  
You don't even want to watch TV  
If you can't see the forest full of trees  
Just burn it all down, and bring the ashes to me Keep you waiting, hour after hour  
Every night, in your lonely tower  
Looking down at all of the wreckage  
When we met, you'd never expect this  
And you said, maybe we don't deserve love  
Maybe we don't deserve love  
Maybe we don't deserve love  
We don't deserve  
We don't deserve love  
Maybe we don't deserve love  
Keep both eyes on the road tonight  
'Cause I'm driving home to you  
Terrible song on the radio  
Baby what else is new?  
Been hiding my scars in broad daylight bars  
Behind life tracks on TV  
If you can't see, the forest full of trees  
Just burn it all down, and bring the ashes to me Keep you waiting, hour after hour  
Every night, in your lonely tower  
Looking down at all the wreckage  
When we met you'd never expect this  
And you say, maybe we don't deserve love  
Keep you waiting, hour after hour  
Every night, in your lonely tower

Looking down at all the wreckage  
When we met you'd never expect this  
And you say, maybe we don't deserve love  
Maybe we don't deserve love  
Maybe we don't deserve love  
We don't deserve  
We don't deserve love  
(We don't deserve love) Mary, roll away the stone  
The men that you love  
Always leave you alone  
Well go on Mary  
Roll away the stone  
The men you love always leave you alone  
You hear your mother screaming  
You hear your daddy shouting  
You try to figure it out  
You never figured it out  
Your mother's screaming  
That you don't deserve love  
If you don't deserve love  
And if I don't deserve love  
Could we deserve?  
Come down off your cross  
And tell me  
It's always the Christ-types  
Mary, roll away the stone  
The one that you love  
Always gonna leave you alone  
Particularly the Christ-types  
Mary, roll away the stone  
The one you love  
Always leaves you alone  
It's always the Christ-types  
You're waiting on
