

# If I Could

## Tahuna Breaks

If I could I surely would , I would fly across the sea to tell you that I belong to you  
and if I had the time, the place, I would tell you that I love you so cause I, yes I belong to you

whoa oh oh

I don't want to be alone I can't stand the pain, cause being without you was harder then I'd imagined  
and if I the sun refused to shine I don't mind yeah that's okay, because I find myself sleeping the days away

For my world's an empty place without you  
Oh my world's an empty place without you

I am who I am but I do what I can to give the world to you one day all your dreams come true  
cause never ever have I met someone who makes me feel this way your precious that's what you are

whoa oh oh

I don't want to be alone I can't stand the pain, cause being without you was harder than I'd imagined  
and if the sun refused to shine I don't mind yeah that's okay, because I find myself sleeping the days away

For my world's an empty place without you  
Oh my world's an empty place without you
