Prove to You

Chevelle

I'll fight your war Promise not to lose You give in to circumstance Not gonna prove to youLearn of patience worth to you Many teacher, no student We go by name and not by rank Too many sighs incompetentThere's no bond between some men A concept already known What little time you try to give It's a big cheer for you aloneRelax and try again Broke off, broke up and spent He's choking in left field Can't tell this place is doomedNow no place like home Doomed now, no place like homeI'm gonna prove to you I'm gonna prove to you I'm gonna prove to you I'm gonnaI'm gonna prove to you I'm gonna prove to you I'm gonna prove to you I'm gonna, I'm gonna
