

Day to Daze

NOFX

I trusted you at least I thought I could
I tried to believe when you said
"I got a better job, I can pay you back real soon
No I don't do those drugs no more
I know my luck has changed
My lifestyle has rearranged, I'm on my feet" You'll never change your ways
Living from day to daze
Why don't you fade away I've heard all this before
When you we're sleeping on my floor
You said "Only for a day"
But as those 3 weeks passed
My patience didn't last nor my food You'll never change your ways
Living from day to daze
Why don't you fade away
