

# Ode to Chin

## Switchfoot

Get siked man, get siked man What's your direction  
Tell me what's wrong  
Tell me what's right  
What's your direction  
Think about somebody else  
For the night Life's more than girls  
God's more than words  
You're more than this  
So what's your direction  
And where are you now Grow, grow where you are  
Anchor your roots underneath  
Doubt your doubts  
And believe your beliefs What's your direction  
What matters most is what  
You do now  
What's your direction  
All that you've been  
Makes who you are now 'Cause I've been ashamed  
I've been a fool  
You know I've backed down  
When I lose direction  
I pray to be found Grow, grow where you are  
Anchor your roots underneath  
Doubt your doubts  
And believe your beliefs Grow, grow where you are  
Anchor your roots underneath  
Doubt your doubts  
And believe your beliefs
