

Sidestep

Robin Thicke

Ohhhh Baby Come on baby, Come on now Sidestep
Hey, Dont you sidestep my love
Huh They say it aint about your car and your house
Or the money you make and how it all goes down
I think that its about keepin ones you love near
Thats why im on the hop thinking you should be here
Maybe I should hurry up get by your side
Follow you around just be on your time
Or maybe I should just leave you behind
Maybe Im keeping you from a chance at a better life Oh Then I call you and I come out and tell you straight up
Baby I, I need your love And you go sidestep, Pull me around
Put out your hand, Put me on down and I
Wanna know why, why you dont need my love
Then you go sidestep, Swing me around
Put out your hand, Put me on down and I
Wanna know why, why you aint in no hurry for my love Oh Hmmm
You aint in no hurry Baby
That makes me worry On the telephone telling me tired of being alone
But we staying up all night
Talking about I aint doing right Baby come on Oh and when I open up and straight up tell you
Baby
A man needs love too Then you go sidestep
Spin me around, Put out your hand
Put me on down and I, Wonder why you aint
Aint in no hurry for my love Come on now Oh
Hey baby
Sidestep
Hey Come on baby
Come on Now Hey Sidestep Hey
Dont you sidestep my love Come on baby uh I drop everything and cancel my plans, uh
And I come to you hat in my hand
Hoping we can find a new way to understand babe
And maybe we can be a better woman and man Come on now Oh I need you cause youre my best friend
But I cant believe it, here we go again When you go sidestep
Pull me around, Put out your hand
Put me on down and I, Wanna know why
Why you dont need my love
Then you go sidestep
Swing me around, Put out your hand

Put me on down and I, Wanna know why
Why you dont need my loveOooohhSidestep
Swing it around, Put out your hand
Put me on down and I, Wonder why you aint
