

# Good Thing

## L.A. Guns

Well it's a good thing I kissed you when I did  
I like the sexy way your fingers slid  
And anything done became undid  
Wait a minute honey I think we should video No no no got to give it to me  
No no no coz' I need it you see  
It's a good thing  
Talking about a good thing, yeah  
It's a good thing  
Nothing but a good thing, yeah  
It's a good thing you called me when you did  
The pressure building up upon my lid  
And on to your back I watched you slid  
Gotta tell you honey I wish they were all like you No no no got to give it to me  
No no no coz' I need it you see  
(chorus)  
Well it's a good thing I kissed you when I did  
I like the sexy way your fingers slid  
And anything done became undid  
Wait a minute honey I think we should video No no no got to give it to me  
No no no coz' I need it you see  
(chorus)
