Me, Myself And I

Vitamin C

You know he was the type that never left me alone
Until I really need to reach him on the telephone
He was nowhere to be found he's hangin' out with the boys
Drivin' over in the city in his pretty new toy
Never gonna get it together, uh huh, uh huh
Never gonna get any better, uh huh, uh huh
Should I stay or should I go because I really need to know
Or do I stick around and cry 'cuz now it's time to say goodbye?
(Please baby, please baby, please baby)
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody
That I can depend on
Then there was the one who couldn't make up his mind
He's always checkin' every Chickie at the checkout line
He told me baby, "I'm just lookin', but I never would touch"
Then I catch him with Alicia at the back of the bus
Never gonna get any better, uh huh, uh huh
Never gonna get it together, uh huh, uh huh
Should I stay or should I go because I really need to know
Or do I stick around and cry 'cuz now it's time to say goodbye?
(Please baby, please baby, please baby, please baby)
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody
That I can depend on, I said "Me myself and I"
I ain't got nobody
That I can depend on
2 4 6 8, why don't you appreciate me?
Adios
Amigo
Bye bye
(Please baby, please baby)
Me me me, that's the way it's supposed to be
(Please baby, please baby)
Can you believe this?
I ain't got nobody

That I can depend on, just me myself and I
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody, uh huh
That I can depend on, just me myself and I
I ain't got nobody
That I can depend on, I said, "Me myself and I"
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody
That I can depend on, just me myself and I
I ain't got nobody
