Centerfold

MOTHXR

Centerfold
She stays the same
Every single centerfold
So, so very average
What she can't see she doesn't knowGive me something to believe
Maybe maybe
Make me something you don't need
Maybe baby
Cause baby baby it's not hardGetting old
Day after--after the centerfold
So, so in my head
If she could see the foldI don't know
I, baby baby, I
Never really found that out
Never really found out
Never really found out
Never really found out
