

# Centerfold

## MOTHXR

Centerfold  
She stays the same  
Every single centerfold  
So, so very average  
What she can't see she doesn't know Give me something to believe  
Maybe maybe  
Make me something you don't need  
Maybe baby  
Cause baby baby it's not hard Getting old  
Day after--after the centerfold  
So, so in my head  
If she could see the fold I don't know  
I, baby baby, I  
Never really found that out  
Never really found out  
Never really found out  
Never really found out
