

# Dog Collar

## Tilt

With her hair chopped off all different lengths  
And her Rhinestone studded collar  
She's acting a little mean right now  
She just quit smoking non-filters She's had it! She's had it! Maybe she'll go to Chico State  
Maybe she'll go to Laney  
Maybe she'll go to UC - No! What is she gonna do,  
what is she gonna do with her life? Her stingray bike is covered with all kinds of weird-ass stickers  
She don't care about losing weight to look like no stick-figure She's had it! She's had it! Maybe she'll start a life  
of crime  
Maybe she'll go to Europe  
Maybe she'll start a punk band - Why?! What is she gonna do,  
what is she gonna do with her life? Maybe she'll be a journalist  
Maybe she'll be a junkie  
Maybe she'll make the best-dressed list What is she gonna do,  
What is she gonna do,  
What are you gonna do with your life?
