

# Staystrong

## Soulfly

Material things can't conquer me  
Matter nothing to me, only your soul can be free  
When we connected spiritually  
I feel you never went away from me Waking up and I freak  
Now it's so hard to breathe  
Blood, sweat and my tears  
Make the fear disappear Now that you are gone  
I try staying strong All these painful years  
All these fallin' tears  
Will never bring you back  
Bring you back to me I know one day, I'll see you again  
I know this can't be the end  
I know you'll be there waiting for me  
Waiting for me Carry on  
Stay strong  
Carry on Now that you are gone  
All these painful things  
They make bleed inside  
I try staying strong I just want to see you  
I just want to see you  
Dana, Moses  
Watch me, watch me Oh, God, take the pain away  
I'll give you my life instead  
Oh, God, take the pain away  
For you, my life I'll trade Waking up and I freak  
Now it's so hard to breathe  
Blood, sweat and my tears  
Make the fear disappear Now that you are gone  
I try staying strong Carry on  
Stay strong  
Carry on
