

# We Live

## Bosson

(Chorus:)

We Live and we die  
and we learn to find  
the things we live and die for (repeat) I don't wanna be an ordinary man  
No I don't wanna be as neat as a new pin  
I don't care about just being safe and calm  
And the time that we have inside it keeps on  
ticking, till the end So it's time that we live our  
lives and celebrating  
I don't wanna be a worker everyday  
No I don't wanna be a boss that you obey  
I don't care about what people might just say  
And the time that we have inside it keeps on  
ticking, till the end So it's time that we live our  
lives and celebrating (Chorus) I don't wanna say I didn't take the chance  
I don't wanna say I never learned the dance  
I wanna be someone, someone they show respect  
GIve it all up for a little li li life  
GIve it all up for a little li li life And the time that we have inside it keeps on ticking  
till the end  
So it's time that we live our lives and celebrating (Chorus)  
life is all to short to spend on doing boring things,  
and I want and I want I want to have fun Holding on to be the one I am  
Holding on to be the one I am... (Chorus)
