Kill or Be Killed

Biohazard

The taste of blood erases all the guilt
Tear down the walls and all that was built
As history repeats, we kill without thought
Do onto others is what we're taughtI can't go on, I'm losing my faith
Lost all hope in the human race
Walking tall, kill or be killed
Stronger than ever, we will rebuild, we will rebuildScavenging for something more
Something worth me dying for
All is fair in love and war
We will avenge and even the scoreI can't go on, I'm losing my faith
Lost all hope in the human race
Walking tall, kill or be killed
Stronger than ever, we will rebuild, we will rebuildKill, kill, kill or be killed, kill
Revenge evens the score, kill
Death for a cause, kill
Live for nothing more, nothing more, ohWe gotta stand up and fight, let's ignite
We gotta put our shit behind us, it's time to unite
Like dynamite we'll explode and take back what is ours
And never let them win again, die, you fucking cowardsWe gotta stand up and fight, let's ignite
We gotta put our shit behind us, it's time to unite
Like dynamite we'll explode and take back what is ours
Never let them win again, dieKill, kill, kill or be killed, kill
Revenge evens the score, kill
Death for a cause, kill
Live for nothing more, killKill or be killed, kill
Revenge evens the score, kill
Death for a cause, kill
Live for nothing more
