

Looking Up To You

Michael Wycoff

So sweet, got me lookin' up, got me lookin' up to you
So sweet, got me lookin' up to you
So sweet, got me lookin' up, got me lookin' up to you

First impressions, handed just on how it could be
Often thinking that you could be the love I need
I'm looking forward to that sweet reality Oh yeah
I see myself rewarded with the love I need

And I'm believing got me looking up to you
What I'm recieving keeps me feeling like I do ... ah yeah

There's a thing never simplified ... oh no
Only mastered by those who take the time
Don't you know good judgement could keep it on your side
The rules are buried emotions often decide

But I'm believing got me looking up to you
What I'm recieving keeps me feeling like I do ... ah yeah

So sweet, got me lookin' up, got me lookin' up to you
So sweet, got me lookin' up to you
So sweet, got me lookin' up, got me lookin' up to you
Got me lookin' up to you

You know these times can take you through so many changes
..... yes they can
Things you can't figure out sometimes seem the strangest
People doing things no one can explain
I don't know what would do if love wasn't here to keep me sane ... Whoaaa

What I believe in's got me looking up to you
What I'm recieving keeps me feeling like I do

So sweet ... it's so sweet
Got me looking, got me looking up to you

What I believe in got me looking up to you
What I'm recieving keeps me feeling like I do

What I believe in got me looking up to you
What I'm recieving keeps me feeling I do

What I believe in got me looking up to you
What I'm recieving keeps me feeling I do
