

# Information

Dave Edmunds

She's been around me all the while  
Try as I might, I can't forget her smile  
In passing conversation, what did I hear her say?  
Where did she come from? Who is that woman anyway? What can I do to change her mind?  
Maybe she thinks that I'm just not her kind  
I think she wants me but she's trying to play hard to get  
When she treats me this way, I wish we'd never met Information, that's what I need  
Some information. Where did she come from?  
Information, that's what I need  
Some information  
Information, that's what I need  
Some information. Where did she come from?  
Information, give me a lead  
Some information The lights go down, the music's loud  
She's not around, I lost her in the crowd  
I really want her, but she's just a mystery  
What have I got to do to make her notice me? Information, that's what I need  
Some information. Where did she come from?  
Information, that's what I need  
Some information  
Information, that's what I need  
Some information. Where did she come from?  
Information, give me a lead  
Some information If only I could find a way  
What do I have to do to make her stay?  
I've got to find her again and try to steal her heart  
What I need is a lead, but I don't know where to start Information, that's what I need  
Some information. Where did she come from?  
Information, that's what I need  
Some information  
Information, that's what I need  
Some information. Where did she come from?  
Information, give me a lead  
Some information
