

# Young Blood Spills Tonight

## Eyes Set To Kill

Sip my blood till there's no blood left to spill  
From my neck embraced by a concealed grip I welcomed in my arms  
    Bruised by your love  
    Burned by your kiss  
    Is this true love?  
    Bruised by your love  
    Burned by your kiss  
    Young blood spills tonight  
    This time the victim is you  
    Poison lips, the ones you kiss  
    I swear my love for you is true  
    Young blood spills  
Now there I sing my deadly lullaby  
    Bruised by your love  
  
    Burned by your kiss  
    Is this true love?  
    Bruised by your love  
    Burned by your kiss  
    Is this true love?  
Now there I sing my deadly lullaby  
Now here I sing to hypnotize your body  
    Now there I sing my deadly lullaby  
    Now here I sing to hypnotize your body  
    We bled that night till drained  
    You drank me dry i did the same  
    We bleed this night till drained  
        This cold  
    We bled that night till drained  
    You drank me dry i did the same  
    We bleed this night till drained  
        This cold night
