Whirlwind Struggle

Terrorizer

You know what makes us really sick
Are these fucking assholes in control
With their power, greed for money
they take it all from the poor
Whirlwind Struggle
Taking force on the innocent
take what rights, what little we have
they say we're free as can be
but we're all slaves to the government
Whirlwind Struggle
Understand there's too much pain
the suffering of man continues
will we ever learn from this
or will war be the final destiny
Whirlwind Struggle
