Mob Tactics

It's alright now
We're alright now
Yeah we're fighters
 You and me
 Soul survivor
Start a fight like lovers can
Don't surrender to the man
 We're alright now
 We're alright now
 They can't take us
 They'll never break us
She my baby she stands tall

She my baby above it all
 Not a pussycat at all
She's a leopard but she don't crawl
 They can't take us
 They'll never break us
 They can't take us
 They'll never break us
 They can't take us
 They'll never break us
 Apart
 Surround us
