

Only

Sublime With Rome

I stand my ground in stormy weather
we're pickin up the pieces that we dropped along the way
 we rise and fight and fall together
anything to forget the problems of yesterday
 whatever they say is not only
 not the only way I know
 whatever they say is not always
 not the only way for me
 whatever they say is not for me
 the sun will rise and fade your bruises
but it can never cleanse your body of the wounds and battle scars
 we all just fight for some reaction
but you get yours, and I'll get mine, and they'll get theirs
 whatever they say is not only
 not the only way I know
 whatever they say is not always
 not the only way for me
 whatever they say is not only
 not the only way I know
 whatever they say is not for me
they tell us to keep pushing on, on, on
I said we can't, we can't, we can't move much more foward
 with uor feet pushed hard to the ground, ound, ound
 don't you know how hard it is to heal?
 don't you have any idea what is means?
 whatever they say is not only
 not the only way I know
 whatever they say is not always
 not the only way for me
 whatever they say is not only
 not the only way I know
 whatever they say is not for me
 oooh not the only way for me
 oooh
