

Parasite

Warzone

Advisory - the following lyrics contain explicit language:

There was a time when hunger was mine, you'd walk the line.
You sowed the seed, your making us need, your watching us bleed, you bastard!
We always felt you were a better friend, with your riches and your smiles,
 You helped me keep the wolves from the door,
 You filled our heads so full of, Lies!
We always felt you were a better friend, with your iches and your smiles,
 You helped to keep the wolves from the door,
 You filled our heads so full of, Lies!Parasite!
 Parasite!Life was a ball and you took it all,
 We took a fall,
 You were the doubt
 You won't bail us out, there's no use to shout, Your dying!
We always felt you were a better friend, with your riches and your smiles,
 You helped to keep the wolves from the door,
 You filled our heads so full of, Lies!
We always felt you were a better friend, with your riches and your smiles,
 You helped to keep the wolves from the door,
You filled our heads so full of, Lies!Parasite!A toffee for the kiddies, sugar and spice,
 Just wait a minute fellas, your anything but nice!
We always felt you were a better friend, with your riches and your smiles,
 You helped to keep the wolves from the door,
 You filled our heads so full of, Lies,
 [Repeat]Parasite!
 Parasite!
 Parasite!
 Parasite!
