

# Superheroes

## Brains

Look up in the sky it's a bird or a plane?

You may have great power to be large  
But you don't know but you don't know  
To helping someone  
We never say no  
Like a superhero

This song is all about tonight we need to confess  
Get over yourself and pray for the Jah Jah's bless  
All of us have friends dem live with full of a stress  
But many of us nah see dem suffer just make excess

For help somebody you don't need to be Iron Man  
Nah need nah money and nah need any weapon  
But we need the might of our soul  
Lift dem life up and keep roll

Everyday people them go  
It comes with the flow  
Just live like a superhero  
We love the way that you glow  
Just go with the flow  
And live like a superhero

You may have great power to be large  
But you don't know but you don't know  
To helping someone  
We never say no  
Like a superhero

Mask or any super power we don't need for that  
Mr Bruce lives in a castle but i just live inna flat  
An everyday hero nah has nah combat  
But I'm haffi get on well with the place he works at

Whenever somebody needs you pon the corner  
To give a big favour or a glass of water  
What will you do? It's on you  
Why don't you follow my crew
