These Streets

Eva Under Fire

You tell me the same thing over and again/ I know that you're lying and still you pretend/ I wish you could see her /the look on her face/ the day that you told her /she'd been replaced

Pre chorus
Replaced (x3)

Chorus
This time/ you can save yourself
If you won't /listen/ why should anyone else/ this is what you want it to be/ just know they'll eat you alive/ on these streets

You're on to the same things over and again/ you've switched up your story to try and pretend/ its sickening the game that you play with my head/ I'd lie to myself to never play again!

Again(x3)

This time/ you can save yourself
If you won't /listen/ why should anyone else/ this is what you want it to be/ just know they'll eat you alive/ on these streets

Bridge:
And still I catch you throwing all of your pearls to swine/ these streets have come for me too/ you'll never take me alive! All that I am/ all that you are/ is all that we/ have kept apart

This time/ you can save yourself
If you won't /listen/ why should anyone else/ this is what you want it to be/ just know they'll eat you alive/ on these streets

just know they'll eat you alive/ on these streets
