

# I May Never Pass This Way Again

Waylon Jennings

Little girl  
Don't be so quick to give your love so free  
Little girl  
What makes you want to throw yourself with me? Just in your teens  
You're lookin' more like twenty one  
You run ahead of life when it's only just begun Don't you know I may never pass this way again?  
Little girl, you'd better go before I'd change my mind  
Little girl, walk away while you still have the time It's just a part of growin' up someday you'll see  
Then you'll wonder what you ever saw in me  
Don't you know I may never pass this way again? Mama sets home awaitin' you to call  
By now Daddy's lookin' tired  
Wonder what can she be  
And what she's doin' out now late at night Little girl, you better go  
Before I lose all sense and my control  
I'll be crossed, bridge down on the road  
And you'll be left behind to pay the toll I may never pass this way again  
Little girl, wait for him he'll soon be on his way  
Little girl, you think within what I'd do today It's just a part of growin' up someday you'll see  
And then you'll wonder what you ever saw in me  
Don't you know I may never pass this way again  
I may never pass this way again
