Get Up & Go

Hanson

Get Up & Go (I. Hanson, T. Hanson, Z. Hanson) She plays guitar with her fingertips She'll play your heart with her tender lips She'll work it out until she makes the tips And it's alright, yeah it's alright Holding her tight in late December I look in the stars and I remember She doesn't mind when you offend her And it's alright, yeah it's alright Just a girl like you, and maybe just a Just a guy like me, maybe we Could take a walk on the wild side Take a look and see Get up and go Just a girl like you, and maybe just a Just a guy like me, maybe we Could take a walk on the wild side Take a look and take a look and go Get Up and Go What could I give when you've got all you need Every time I look at you it makes me see

What could I give when you've got all you need
And she looks at me like all I want's a little free
Every time I look at you it makes me see
That it's alright, yeah it's alright
We'll get away be in love we can make it better
All I need's a little time for us to get together
Happiness is just a step away
When it's alright, yeah it's alright
Just a girl like you, and maybe just a

Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and see
Get up and go
Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and take a look and go
Ooh oh, ooh oh, won't you go

Ooh oh, ooh oh, won't you go Ooh oh, ooh oh, won't you go Take a look and, take a look and go Seems like love has always found a way But there's only so many hours in the day All that I know is that you're here with me And it's alright, yeah it's alright Won't you tell me that you need me so bad 'Cause you are everything I've never had Every time I look at you it hurts so bad And it's alright, yeah it's alright Just a girl like you, and maybe just a Just a guy like me, maybe we Could take a walk on the wild side Take a look and see Get up and go Just a girl like you, and maybe just a Just a guy like me, maybe we Could take a walk on the wild side Take a look and take a look and go Get up and go
