# All That You Mean

## Lee Rogers

Staring deeply in, deeply into some shallow ground
Trying to see the time before
I'd give it all, I'd give everything for a picture
I cant remember what it was i sawDont want to find it hard,i find it hard to say
So I watch my words, drifting awayBecause I'm trapped sometimes in the wilderness
Locked inside of me
And I played with fire for a little while with the devil
Just to see
I try to walk on water from time to time
To see if I believe
But the Universe just isn't big enough to hold
All that You meanSo it always goes, it always goes like this again
Just when I thought, I was gonna see some light
Just like the facts, like the facts I'm always missing
Or like the rain falling night after night after night after night...I'll find another day, and watch it come up slowly
Like something strange for the first time, or something HolyBecause I'm trapped sometimes in the wilderness
Locked inside of me
And I played with fire for a little while with the devil
Just to see
I try to walk on water from time to time
To see if I believe
But the Universe just isn't big enough to hold
All that You mean
