

Slide Over

Ready for the World

I just saw you look at me
Tell me do you want what you see
And I was kind of wonderin'
Why you're sitting alone - you're just too cute
Is it that you want me to go over there
If you don't
You better come over here Slide over, baby
Slide over, baby Don't you want me to get real nice and close
Baby I will
You're the kind of girl who wants the male to do the work
You gotta change
Why look as though there's fear
'Cause baby, I know why you're here Slide over, baby
Slide over, baby
Slide over, it's getting to hard for me
Slide over
