

# Lost At Sea

## Great Northwestern Hoboes

I was a boat driftin' out into the sea  
I had nothing but pieces of thoughts of the hope  
That you would see me  
I was a stone's throw away from land  
But thousands and thousands of miles away  
From reaching your hand  
The waves they crashed upon the rocks that you  
Were trying to walk along

And in my head I heard them play a song for you and me  
The waves they crashed upon the rocks that you  
Were trying to walk along  
And in my head I heard them play a song for you and me  
Let's get lost at sea  
Where they will never find us  
Got stars at night to guide us  
Get lost at sea  
Where they will never find us  
Got stars at night to guide us
