Keep It To Yourself

Kacey Musgraves

You turn on the light

Then you turn it back off

'Cause sleeping alone, yeah it ain't what you thought

It's the drip of the sink

It's the click of the clock

And you're wondering if I'm sleeping You heard from your friends

That I'm doing okay

And you're thinking, maybe you made a mistake

And you want me to know

But I don't wanna know

How you're feelingSo keep it to yourself

If you think that you still love me

Put it on a shelf

If you're looking for someone

Make it someone else

When you're drunk

And it's late

And you're missing me like hell

Keep it to yourself

Keep it to yourselfYou see me out

And I'm standing alone

Well it don't mean that I'm gonna need a ride home

If you walk up to me

Like it ain't what it is

Know that it ain't gonna end with a kissSo keep it to yourself

If you think that you still love me

Put it on a shelf

If you're looking for someone

Make it someone else

When you're drunk

And it's late

And you're missing me like hell

Keep it to yourself
