

# Bond Girl

## The Rascals

Woahhh x4

Sweating out another tantrum  
Reads the book of poetry  
Words believed in the anthology  
You all need to calm down

I can see it that you want to be with me  
Yes I can see it that you want to be with

Enter the world of society  
Girls that make you go weak at the knees  
The fun starts on the balcony  
The perfect girl from the bond film

Yes I can see it that you want to be with me  
I can see it that you want to be with me

Woahhh x4

I can see it that you want to be with me x2  
I'm indecisive but you keep looking at me  
I'm indecisive but you keep looking, looking, looking
