

# Black Force Domain

## Krisiun

Before the plague of fallacy  
Rise the strongest domain  
From shadows of forgotness  
From pain of disillusion  
Fearless we march in attack Evil supreme leads our fate  
Rage grows inside us  
Hell is our distant quest  
None will rest in peace Crosses shall be broken down  
The mortal bastard man so called lord  
Leads this world to the end Black storms shows up the end  
Leading the demons to strike  
We are knights of fire  
Fighting against the fallacy of this dead land  
The fire sought our glory  
We are the real force Storms, fire and pain  
Now they cry before us  
Spreading screams of death throughout the void  
Centuries of decay in hands of the so called God  
Victory of death  
The glory from black Black force domain  
Black force domain  
Black force domain  
Black force domain Black force domain  
Black force domain  
Black force domain  
Black force domain
