

# Chemical Youth

## Queensryche

LEAD ME- the leftist cry as the right subsides  
HEAR ME- the media mouth is open wide  
SAVE ME- success is our hunger we need to feed  
FREE ME- we will not lose to their anarchy!  
We are your leaders-  
we are rebellion!  
aural supremists  
we are rebellion!  
we are future!  
SHOW ME- the wave of eighties is #3  
PRAISE ME- our religion is technology

CHANGE ME- alterations for the stigmatized  
HELP ME - for the cause. Would you cross that line?  
we are rebellion!  
chemical youth scream  
we are rebellion  
If we don't stand together  
we stand to lose the future  
peace won't last forever  
who will be the martyr you or me?  
We can be the future  
You and I the leaders, Help me!  
If we don't stand together  
We stand to lose the future  
We are the last hope...but there's danger
