

# Stand Tight

## Accept

My bones are trembling  
Veins are filled with ice  
I see you swagger through  
Your boots are shiny too I still feel your torture  
Messing up my life  
I cannot forget  
How you showed me your despise Deep down in the gravel  
I lie and wait for relieve  
And I hear the orders you scream  
Sounds like a choir to me Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together I know I am unconscious  
Just what you like to see  
You say you've got to drill me  
And you let me kiss your gun I have to clean your boots  
In every way you like  
You deny my human rights  
You don't make it easy And I am so down  
So devoted and humbled to you  
What more can slave remain  
Before he floods away Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together  
All right
