

# Kiwis Come In Close

## The Deep Freeze Mice

Everything Around me is Yellow or It's Green  
Your eyes are yellow but the living room is green  
Even when you close your eyes the yellow light shows through  
I can't believe you dont know what im up to

Your Lips are like a moth they're chasing me around the light  
It's ages passed our bedtime better stir in for the night  
Your parents wouldn't trust me with you conscious after Ten  
I dont accept it's anything at all to do with them

[Chorus]

Your lips attract me like a moth / I think I could bite your dress off / what do you change to after Half Passed Ten?  
I don't quite mind still you put them then  
You put them then  
You put them then

[Chorus end]

Steaming jungles full of insect eating plants  
I need to cut my way through several did I ever stand a chance  
Harmful Mutant Beings who all claim to be your dad  
Have digested every chance I ever had

Your Relatives are scary I suspect they eat their friends  
They pile on so much pressure that I service with the bends  
Yards are hyperactive kiwis and they watch me every night  
This sort of attitude is difficult to fight

[Chorus]

Your relatives are scary and they're mad your dads a zombie  
Kiwis come in close to watch me every night  
They think I'm their lunch I think they're right  
I think they're right  
I think they're right

[Chorus end]
