Farewell

To / Die / For

you've been hurt so many times
you always seemed to buy their liesbut that's all gone
forget your past
go on and dry those tears
now come with me
I'll take you someplace safethe world is cold and so alone
we've got no place to call our ownbut I don't care
come run with me
and we will find a way
believe me now
I'll take you someplace safewill you take my hand
'cause nothing never ever lasts
I'll seal our love for eternitybut I don't care
come run with me
and we will find a way
believe me now
I'll take you someplace safewill you take my hand
'cause nothing never ever lasts
I'll seal our love for eternity
